jedt2022-7943-17028@bicol-u.edu.ph

Objective

Results-driven IT graduate with hands-on technical support experience and graphic design expertise seeking to leverage my problem-solving skills, creativity, and adaptability in a professional IT role. Committed to continuous learning and contributing to organizational success while expanding my technical and interpersonal competencies.

Skills

Technical:

- Proficient in Microsoft Office (Word, Excel, PowerPoint), video/audio editing tools
- Graphic design using Canva, Adobe Photoshop, and Illustrator for publications and promotional materials
- Basic hardware/software troubleshooting and tech support experience
- Programming languages: HTML, CSS, PHP, C++, C#, Java, Python, React-Native
- Database & data analysis: MySQL, SQLite, Exploratory Data Analysis (EDA), Big Data concepts
- Web development: Built an E-commerce Web App and Ibalon Central School Enrollment System
- Software development: Developed Inventory Management System and Rental Management Executable Program
- Android application development: An interactive e-learning app to facilitate online education and enhance student engagement.

Professional:

- Strong teamwork and collaboration (CIBI/SSG leadership training)
- Time management and multitasking in fast-paced environments
- Detail-oriented with a commitment to quality work
